

UNIKA 710 VINTAGE GOLD SOUS PLAN

Kitchen Sinks

Code: N157 S89

UNIKA BOWL 710x400 SOUSPLAN VINTAGE GOLD

DETAILS

Coloring	Gold
----------	------

Edge/Installation Type	Undermount
------------------------	------------

Finish	PVD
--------	-----

Material	AISI 304 stainless steel
----------	--------------------------

Texture	Vintage
---------	---------

Base	80 cm
------	-------

Dimensions	750 x 440 mm
------------	--------------

Standard fittings	Fixing hooks, gasket, drain, overflow and siphon, boxed packing
-------------------	-----------------------------------------------------------------

Mixer holes	No standard holes
-------------	-------------------

Built-in hole	View technical data sheet
---------------	-------------------------------------------

Drainer	No
---------	----

Width	75 cm
-------	-------

Bowl dimension	710 x 400 mm
----------------	--------------

Number of bowls	1 bowl
-----------------	--------

Waste fitting	3,5" drain
---------------	------------

FEATURES

VINTAGE PVD	The prestigious PVD finish combines with the care for detail of the Vintage finish, to create a combination of unique elegance.
-------------	---------------------------------------------------------------------------------------------------------------------------------

Gold	The Gold finish is obtained by treating the steel with a physical process called PVD (Physical Vacuum Deposition) which deposits particles of noble metals on the surface. The result is a unique and refined aesthetic effect, and an improvement in the mechanical properties of the steel that is more resistant to shocks and scratches.
------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Basket 3,5" waste fitting	The drain is equipped with a large 3.5" drain, with the practical basket cap that prevents the discharge of solid parts.
---------------------------	--------------------------------------------------------------------------------------------------------------------------

High thickness	1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.
----------------	---------------------------------------------------------------------------------------------------

Perimetral overflow	The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape.
---------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Small radius	Bowls with squared shapes with a modern design and an increased capacity, for a minimal aesthetics connected with an extreme practicality.
--------------	--------------------------------------------------------------------------------------------------------------------------------------------
