## FEATURES

**VINTAGE PVD** The prestigious PVD finish combines with the care for detail of the Vintage finish, to create a combination of unique elegance.

---

**Gold** The Gold finish is obtained by treating the steel with a physical process called PVD (Physical Vacuum Deposition) which deposits particles of noble metals on the surface. The result is a unique and refined aesthetic effect, and an improvement in the mechanical properties of the steel that is more resistant to shocks and scratches.

---

**Basket 3,5" waste fitting** The drain is equipped with a large 3.5" drain, with the practical basket cap that prevents the discharge of solid parts.

---

**High thickness** 1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.

---

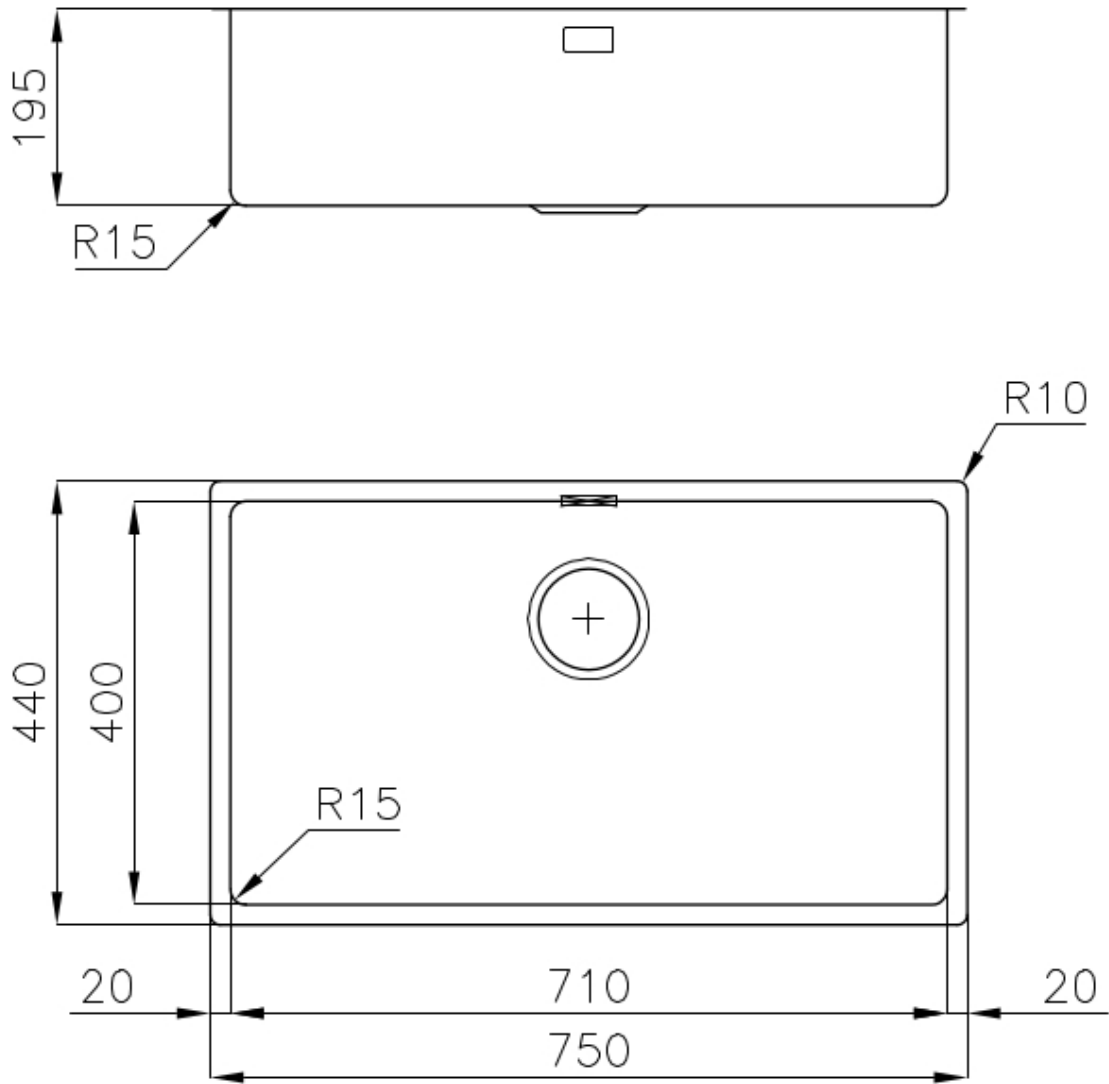

**Perimetral overflow** The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape.

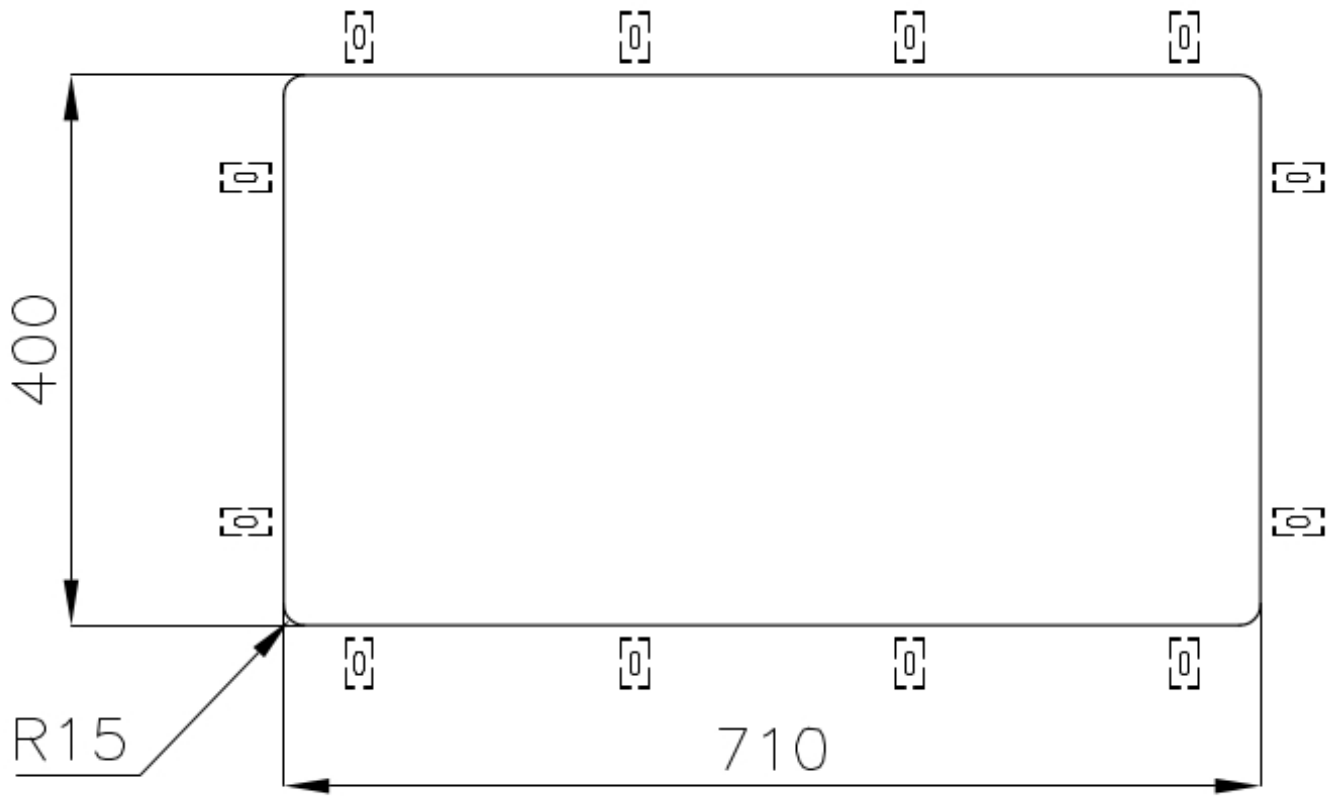

---

**Small radius** Bowls with squared shapes with a modern design and an increased capacity, for a minimal aesthetics connected with an extreme practicality.
