

INTRIGO 400 GUN METAL SOUS PLAN

Kitchen Sinks

Code: N456 S46

VASCA INTRIGO mm 400x400 R12 SOUSPLAN GUNMETAL

DETAILS

Coloring	Gun Metal
----------	-----------

Edge/Installation Type	Undermount
------------------------	------------

Finish	PVD
--------	-----

Material	AISI 304 stainless steel
----------	--------------------------

Texture	Foster brushed
---------	----------------

Base	60 cm
------	-------

Dimensions	440x440 mm
------------	------------

Standard fittings	Fixing hooks, gasket, drain, overflow and siphon, boxed packing
-------------------	---

Mixer holes	No standard holes
-------------	-------------------

Built-in hole	View technical data sheet
Drainer	No
Width	44 cm
Bowl dimension	400 x 400 mm
Number of bowls	1 bowl
Waste fitting	Drain SPACE 3,5"
Notes:	As the product consists of a single seamless steel surface with no gaps or interstices, the use of garbage disposal and waste fitting with automatic control is not permitted.

FEATURES

Gun Metal	The Gun Metal finish is obtained by treating steel with a physical process called PVD (Physical Vacuum Deposition) which deposits particles of noble metals on the surface. The result is a unique and refined aesthetic effect, and an improvement of the mechanical properties of the steel which is more resistant to impact and scratches.
ONE SEAMLESS STEEL SURFACE	The waste-fitting and overflow are moulded on the sink. The product is therefore made out of one seamless steel surface, without gaps or interstices. A great plus in terms of hygiene.
Deep bowls	This bowls reach an important depth, over 20 cm, thanks to the advanced production technology, that can be offer great capincy and practicity in all the washing operations.
High thickness	1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.
Perimetral overflow	The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape.

Save space system

Drain and siphon are designed to leave as much space as possible in the under-sink area, more and more useful today for theseparate waste collection systems.

Small radius

Bowls with squared shapes with a modern design and an increased capacity, for a minimal aesthetics connected with an extreme praticity.

Space waste fitting

The elegant SPACE steel cap closes the drain and leaves no visible residues collected in the basket below. Space also has a small footprint and allows the optimal use of the under-sink compartment.
